3. Products and Services

Nimbus Orbit sells three core products and a professional services practice. All products are hosted on a multi-region cloud platform and share a single sign-on identity layer called OrbitID.

3.1 OrbitLearn (Learning Management System)

OrbitLearn is a learning management system used by 190 institutions. It supports course authoring, live classes, quizzes, certificates, and learner progress tracking. The current version is **OrbitLearn 6.2**, released on 18 August 2026. Key features include an adaptive learning path engine, proctored assessments, and a mobile app for Android and iOS. OrbitLearn supports 11 languages, including English, Hindi, Tamil, Telugu, Kannada, Bengali, and Arabic.

3.2 OrbitInsight (Analytics Platform)

OrbitInsight is a self-service analytics and dashboarding platform. Business users can ask questions in plain English through the built-in assistant, **Nova**, which converts questions into queries. OrbitInsight connects to over 60 data sources, including PostgreSQL, MySQL, Snowflake, BigQuery, Google Sheets, and Salesforce. The current version is **OrbitInsight 4.0**, released on 2 June 2026.

3.3 OrbitConnect (API Gateway and Integration Hub)

OrbitConnect is an integration product that lets customers link their HR, finance, and learning systems through prebuilt connectors and a low-code workflow builder. It handles up to 12,000 requests per second per tenant and offers rate limiting, request logging, and webhook retries. The current version is **OrbitConnect 2.8**.

3.4 Professional Services

The services team offers implementation, data migration, custom connector development, and training. A typical OrbitLearn implementation takes 8 to 12 weeks. Standard consulting is billed at INR 9,500 per person-day.

4. Pricing and Plans

Pricing below is the public list price for the financial year 2026-27, billed annually in INR. Discounts of up to 15% are available for multi-year contracts and education nonprofits.

Product	Plan	Price	Included
OrbitLearn	Starter	INR 4,200 per month	Up to 500 learners, 50 GB storage, email support
OrbitLearn	Growth	INR 18,500 per month	Up to 5,000 learners, 500 GB storage, live classes, chat support
OrbitLearn	Enterprise	Custom quote	Unlimited learners, SSO, dedicated manager, 99.95% uptime SLA
OrbitInsight	Team	INR 2,400 per user per month	Minimum 5 users, 20 data sources, Nova assistant
OrbitInsight	Business	INR 3,900 per user per month	Unlimited data sources, row-level security, audit logs
OrbitConnect	Standard	INR 35,000 per month	5 million API calls per month, 25 connectors
OrbitConnect	Scale	INR 1,10,000 per month	50 million API calls per month, unlimited connectors, priority support

5. Customer Support and SLAs

Support is available through the customer portal at support.nimbusorbit.example.com, by email at support@nimbusorbit.example.com, and by phone at +91-80-5550-1200. Standard support hours are 8:00 AM to 8:00 PM IST, Monday to Saturday. Enterprise and Scale customers receive 24x7 support for Severity 1 issues.

Severity	Definition	First response	Target resolution
Severity 1	Production system down or data loss	30 minutes	4 hours
Severity 2	Major feature unavailable, workaround exists	2 hours	1 business day
Severity 3	Minor issue or degraded performance	8 business hours	5 business days
Severity 4	Question, how-to, or feature request	2 business days	Next release cycle

Service credits apply when monthly uptime falls below the committed level: 10% of the monthly fee if uptime is below 99.95% but at least 99.5%, and 25% if below 99.5%.
